## Objetivo

## Materiais e Métodos

O dataset utilizado, *Predict Students' Dropout and Academic Success* tem como origem o Instituto Politécnico de Portalegre (PP), de Portugal (Martins *et al.*, 2021, p. 167). Os dados foram coletados desde 2008 até 2019 (Martins *et al.*, 2021, p. 168). Foi selecionado devido à relevância acadêmica e por não ter valores faltando em nenhuma das colunas, facilitando o processo de tratamento para a análise dos dados.

## Resultados

## Conclusão

## Relato Pessoal
